Submitted.

Under arrangements made with the Resident (Vide Correspondence ending with Asstt Resident's letter No 1746 & 1995 dt 7th June 1887), the Establishment Cess levied from the Arrack Contractors on the quantity of arrack consumed in the Civil & Military Station of Bangalore is credited to the Resident's Treasury, and the Resident pays the proportionate Cost of the Establishment maintained for the issue ~~of~~ of arrack to the C. & M. Station and for the supervision of the arrack shops there. The "proportionate cost" payable by the C. & M. Station has been fixed at 33% of the Cost of the Distillery Establishment and 54% of that of the Testing staff. The payment is made

yearly on bills submitted by us— The Bill for the year 1888-89 was sent to the Asstt Resdt with our letter No 2701/221 dy 9th July 1889 — No reply seems to have been received to this letter. A reminder may be sent asking for early adjustment— [illegible] 11/8

A similar Bill for the year 1889-90 has been received from the Excise Commr with his letter No 1963/76 dy 9th July 1890. This has to be sent on to the Residency for payment— [illegible]

In regard to the Establishment Cess creditable to the C & M. Station, the Cess collected from the Contractor is first credited in the Mysore Treasuries, and a refund of it is made to the C. & M. Station once every year on bills sent up by the C. & M. Station authorities. The Refund Bill for the year 1888-89 duly checked & countersigned by the Excise Commr & received with his letter No 1173/46 dy 17th Septr 1889, has been sanctioned and forwarded to the [illegible] for payment— Mysk 9.8.

46 represents the percentage of consumption in the City as compared with the C & M. Station. The remaining 54 (100 - 46 = 54) represents the consumption in the Station. The percentage of the cost payable by the Station was accordingly fixed at 54. This is what Mr. McDonnell once told me.

The proper & correct method of calculating the percentage of cost payable by the Station seems to me to be as shewn in the attached slip of paper. The percentage would be 68, not 54 which is wrong.

understand this -

The calculation of 68 percent seems to correct proportion for the three years 83 to 86 - By the same method of calculation the proportion for 92-93 is 70 percent and not 42 as Counsel to be paid for by the Respondent authorities :- Nurses -

To

The Dewan of Mysore.

Dated, Bangalore, 11th Nov 1887.

I am directed to refer you to the correspondence relating with this office letter dated the 11th March regarding the proportionate cost of the distillery establishment payable by the Civil and Military Stations.

2. I am to state that a bill for Rs 3,687-12-5 on the above account, for the year 1888-89, has been received from the Bank of Madras through the Collector of the Civil and Military Stations for adjustment. From the statement attached to the bill it is observed that in September 1888 the distillery establi-

establishment, which was sanctioned
by this Govt Proceedings No 2257-8
of the 28th March 1887 and duly ap-
proved by this Office Letter Marginal-
ly noted, as an addition to the
Commissary Establishment of an
Assistant Supervisor on Rs 50+15
for Museum.

2. This additional appointment
is no doubt necessary but has
never added the amount payable by
the Cantonment Military Station and
thereby caused some difficulty as
to provide the budget provision which
has now fallen short, necessitating
an application to the Government
of India for an extra
grant.

3. This is always a troublesome
matter and I cannot therefore
help saying that the Resident will
be obliged if no references can
be made to this office in
future regarding the Artillery
establishment

Sir,

Adverting to the Dewan's Proc: No. 5213/531 dated 13th Ultimo, enquiring why 54 instead of 68 per cent has been fixed as the proportionate charge in calculating the amount debitable to the Resident's Treasury, on account of the Excise Establishment, I have the honor to state that the Dewan gave the Resident the figures in detail and explained the basis on which the proportions were calculated. The Resident, however, advanced the opinion that 33 and 54 per cent should be the rates adopted and also urged the point demi officially (Vide Assistant Resident's

Resident's letter No: 993/1995 dated 19th March 1887). The Dewan viewing the point involved, viz the payment of Rupees 12-9-7, monthly as a small matter, not worth contending about, waived the difference, and in the Chief Secretary's letter No: 289 dated 5th May 1887, acceded to the Resident's proposal, contained in letter No: 3229/1995 dated 4th December 1886. The Rates for the 3 years 1887-88 to 1889-90 were thus fixed at 33 and 54 per cent. Taking these scales as a basis I solicit that the bills sent for 1888-89 and 1889-90 may be adjusted at an early date.

2. As this question has to be re-adjusted triennially I note the figures for the 3 years ending 31st March 1890, and solicit that for the ensuing 3 years 1890-91 to 1892-93 the percentages may be fixed at 67 and 25·66 per cent for the proportionate cost

	Station	Civil	Total	Districts
1887-88	93,381	43,926 = 137,607		2,01,431
1888-89	99,048	47,069 = 1,43,148		2,28,453
1889-90	94,767	48,703 = 1,41,540		2,54,615

Sir,

In reply has the honor to state that the Excise Assistant Commissioner in calculating the share of the cost of the office establishment, debitable to the Civil and Military Station, as shown at the foot of the printed Schedule, took the pay of the Sheristadar at Rs: 100 as originally fixed instead of

of at Rs: 150 as finally sanctioned by the Dewan in Proceedings No: 1152 dated 24th March 1890. Hence the difference of Rs: 50 in question. But in the Bill submitted with this office docket No: $\frac{1963}{76}$ + 3452 dated $\frac{9}{17}$th July 1890, the cost of the office establishment is taken at Rs: 426, not at Rs: 376, for calculating the share payable by the Civil and Military Station.
